

Current LHFIG requests

Investigation into a pedestrian crossing for Winsley Road between Wine Street and Downs View

Following several requests from residents in the vicinity, LHFIG has been approached to arrange a footfall count to see if it hits the minimum threshold for a crossing.

The survey took place in June this year.

The report has been published and is attached at Appendix B.

Recommendation

Whether or not to accept the recommendation in the report and proceed with the proposed scheme to improve the visibility of the existing crossing.
