Planning Application No: 5	2026/03612
Type of Application:	
Address	2 Piplar Ground
Description of work	Construction of workshop building, replacement wall, alterations to mains building enclosure of front porch and other alterations
Town Council recommendation:	Object. Our position remains the same (see our comments dated 14/7/26) with respect to the previous application for this property namely that bringing the proposed lean-to extension closer to the highway would result in the loss of an open green area resulting in inherent loss of character and openness of the estate and adversely affecting the streetscape. Similar applications in the past have been resisted.
